Diane Kruger Brings “Disorder” to New York

August 10, 2016 11:22 am by Alessandra Codinha

“They’re my friends!” Kruger, clad in a short flouncy frock by [Alexander McQueen](#), interjected with a giggle. “Maybe you’re her friends,” allowed Winocour, “but at least there are more of you than the first time. That is a little step!” And though the film, which follows a substance-abusing French soldier—afflicted with both PTSD and persistent home invaders bent on capturing his charge, Kruger, and turning her palatial summer home into a ball of horrors—is not the lightest of fare, it drew the likes of [Georgina Chapman](#), [Prabal Gurung](#), and Taryn Manning to the premiere and subsequent party to sip Qui cocktails at The James hotel’s rooftop bar, Jimmy; one of many more successful steps to come.
